

ALUCOBOND[®]

GIVING SHAPE TO GREAT IDEAS

ALUCOBOND®

ALUCOBOND® PLUS

4mm aluminum composite material (ACM) comprised of two sheets of smooth .020" aluminum thermobonded to a solid, fire retardant core. Developed exclusively to meet fire performance requirements while providing the benefits & versatility of ACM.

ALUCOBOND® AXCENT

A solid .040" gauge flat aluminum sheet that offers the perfect complement to ALUCOBOND PLUS. AXCENT is excellent for columns, parapet caps, canopies, soffits, and trim.

As an industry leader, ALUCOBOND® brand aluminum composite material (ACM) has been a trusted architectural cladding for over 50 years.

ALUCOBOND is manufactured in Benton, KY and is available in:

- ALUCOBOND PLUS 4mm ACM with Fire Retardant (FR) core
- ALUCOBOND AXCENT .040" flat solid aluminum sheet

The ALUCOBOND product family offers:

- Flatness and Rigidity
- Durability
- Light weight
- Formability
- Ease of fabrication
- Perforation capabilities
- 86 stocked ACM colors
- Custom color capabilities
- Complementary flat aluminum sheet colors
- Can contribute toward earning LEED points
- 100% recyclable
- Zero VOC's emitted in use
- EPD in compliance with International ISO Standards

The versatile characteristics of ALUCOBOND provide for a plethora of applications such as exterior & interior cladding, column covers, canopies, spandrel panels, soffits, metal trim and more, allowing architects to offer inspiring and innovative designs while meeting the standards of sustainable planning. CUSTOM COLOR

If you require a custom color for your next project, our color technicians will strive to match your desired color. Please note, custom color orders are subject to set-up fees and require a 1,000 sq. ft. minimum per color. Exact matches are not always possible due to different inks & pigments used in various industries & application methods. Matching a color created by a spray method, particularly a metallic, may not match with a color created on a roll coated method.

To ensure that we identify your color correctly, we require **either**:

- A hand sample of at least 1" x 1",
or
- Pantone[®], RAL, NCS or paint code reference

Please reach out to your local sales manager to aid with the process at:
alucobondusa.com/sales-rep

Send the color sample along with your name, company name, address, phone number & email, as well as the project name, project location, type of finish and gloss level to:

3A Composites USA
Attn: Color Lab
208 West Fifth Street
Benton, KY 42025

The Classic Collection

Color plays an integral role in the architectural environment, and the timeless palette in our Classic Collection reflects your passion for what's possible. From classic neutrals to biophilic hues, this line offers a wide range of options to help give shape to your great ideas.

Chestnut

Rustic Walnut

A photograph of modern skyscrapers at dusk. The sky is a clear, deep blue. The buildings are illuminated from within, with warm yellow and orange lights visible through the windows. The architecture is contemporary, with a mix of glass facades and solid panels. The text 'ALUCOBOND' is overlaid in large, white, bold letters across the center of the image.
